

UNITED STATES DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA

IN RE: CATHODE RAY TUBE (CRT)
ANTITRUST LITIGATION

MDL No. 1917

Case No. C-07-5944 JST

This Order Relates To:

**ORDER REGARDING PENDING
MOTIONS AND SETTLEMENTS**

ALL DIRECT ACTION PLAINTIFFS

The parties have provided certain lists of pending motions for summary judgment, motions in limine, and Daubert motions. See, e.g., ECF Nos. 4078-1; 4079; 4192-2, Ex. B. Parties have also filed several editions of a settlement matrix. See, e.g., 3920-2. Since those filings, the Court has received several requests by various parties for a voluntary dismissal of claims with prejudice. While certain motions might appear moot based on recent settlements and motions for dismissal, joinders or other interests by non-movant parties may require still issuing an order. An updated motions list and settlement matrix is therefore required.

On April 8, 2016, the parties issued a joint submission regarding Daubert motions and motions in limine. ECF No. 4547. Presumably, this list takes into consideration all settlements and motions for dismissal prior to April 8, 2016. The parties are ORDERED, however, to provide the Court with timely updates to this list whenever a motion becomes moot or the list is otherwise

1 affected. The parties are also ORDERED to provide the Court with an updated list of motions for
2 summary judgment and an updated settlement matrix by April 15, 2016.

3 IT IS SO ORDERED.

4 Dated: April 8, 2016
